Leonard's Chicago Crown Onion Sets

READY SEPTEMBER 1st.

ONION SET growing is now a large business with us. Our operations in this line are more extensive than those of any other firm. The adaptability of the soil we cultivate, and the experience gained by continued effort to excel in growing this article, has resulted in placing LEONARD'S ONION SETS in the lead. They are known for brightness of color, firmness of bulb, and for certainty to produce sound, salable onions. As a result of our efforts in set growing, CHICAGO has jumped, in a few years, from among the least important to one of the greatest centers for the production of this article, and the market here virtually makes the onion set prices for the country.
